

Comerica Park , Detroit Michigan

In 1998, **Enco** was contracted to create erection plans and details for multiple structures comprising the new open air ballpark, home of the Detroit Tigers, Comerica Park.

The project required surveying of construction site, design and layout of precast structures, beam/column structures and stairs towers ending with creation of construction ready details of all components.

Ford Field , Detroit Michigan

In 1999 **Enco** was contracted to detail handrail and miscellaneous steel for the new home of the Detroit Lions, Ford Field.

The project encompassed site surveying and measurement, detailing of all seating, concourse guard-rail and hundreds of structural steel connections.
